

EINBLICKE

«MOST TOUCHED»

EXHIBITION IN COOPERATION WITH BARBARA GLASNER
27 NOVEMBER 2026 TO 29 JANUARY 2027
OPENING 26 NOVEMBER 2026, 6 PM
WITH RAMIN MOSAYEBI, EMI ARCHITEKT*INNEN
SCHWEIZER BAUMUSTER-CENTRALE ZÜRICH

Drawing on a wide selection of objects – ranging from sculptural handle designs to mass-produced industrial products, from iconic classics to the latest innovations – «Most Touched» focuses on an often-overlooked yet essential architectural detail: the door handle.

At the heart of the exhibition are objects selected in collaboration with established manufacturers such as FSB, Glutz, Herzog & de Meuron Objects, HOPPE, MEGA, Olivari, and Beschläge U.S.W. Additional contributors include architects Caruso St. John, artists Thomas Demand and Simon Boudvin, as well as designers Marta Wisniewska and Filip Pawtowski. The selection is accompanied by an extensive collection of over 1,000 photographs of door handles, published by Barbara Glasner in her book «Most Touched». Conceived as an ongoing project, the exhibition invites visitors to submit their own door handle photographs through an open call on social media, which will be incorporated into the exhibition.

This multifaceted approach offers insights into the diversity of hardware, which varies in terms of function, ergonomics, and cultural context. On the occasion of the opening, Barbara Glasner (Verlag form) and Ramin Mosayebi (EMI Architekt*innen) will discuss the architectural significance of door handles and entrances. Two KONKRET lunchtime events dedicated to this topic will take place in December and January.

Exhibition Opening & Reception
Thursday, 26 November 2026, 6 PM

Speakers

Barbara Glasner
Curator und Editor, Verlag form, Frankfurt

Ramin Mosayebi
Architect, EMI Architekt*innen, Zürich
